CAD EFFICIENCY SOLUTIONS

AUTODESK® AUTOCAD®

★ CUSTOM CAD TRAINING ★
INDIVIDUALIZED ATTENTION, NO FLUFF

PACKAGES *1 *3

- **BEGINNER: $1,200 (10 hour course)**

  This package will teach users the basic fundamentals of cad, allowing users to create and manipulate shapes, manage layers, reference files, create layouts, create dimensions, modifying properties, using snaps, hatches and printing and more.

- **INTERMEDIATE: $950 (8 hour course)**

  This package will teach users additional object manipulation commands, manipulating viewports, data linking tables, creating basic sheetsets, loading lisp routines, creating fields, block functions, using fields, creating templates and more.

- **ADVANCED: $950 (8 hour course)**

  This package will teach users how to perform advanced functions such as dynamic block creation, data extraction, advanced sheet set functions, creating linetypes, e-transmitting, parametric functions, creating custom tool palettes and more.

SPECIFIC TOPICS *2 *3

- Dynamic Blocks

- Basic Lisp Routine Creation

- Layer States

- Custom Linetypes

- Layer Management

- Sheetset

- E-Transmitting

- Data Linking

- Fields

- Parametric Functions

- Custom Page Setups For Batch Plots

- Wipeouts And Object Layering

- PDF to Cad Conversion

- Data Extraction

- Topics Not Listed Can Be Requested
